CAREER GOALS

Become a software engineer, capable of developing new technologies to solve difficult problems in development needs, providing solutions and implementing strategies to contribute to solving real problems with AI technology applied to applications. Accumulate experience and knowledge to be able to take on higher positions in the IT field and dedicate yourself to society, country, and the future.

EXPERIENCE AND PROJECTS

Tour Management (.NET)

10/2023 - 11/2023

Team size: 4

ROLE: FULL-STACK DEV (TEAM LEADER)

Tour management, personnel management, customers, services, invoices, providing a variety of domestic and foreign tours.

Github: <https://github.com/totgokhung123/QL-tour-LTW-n>

TECH

.NET Framework, C#, MSSQL Server, Advanced Installer

Face recognition using ADABOOST

12/2023 - 01/2024

Team size: 3

ROLE: BACK-END DEV (TEAM LEADER)

Face recognition demo with real-time scanning data.

TECH

Python, MSSQL Server

Job Search Website

03/2024 - 04/2024

Team size: 5

ROLE: BACK-END DEV (TEAM LEADER)

The website helps connect candidates with employers quickly and effectively, jobs by industry, location and desired salary.

Github: https://github.com/totgokhung123/DoAnNhom2_LTWEB

TECH

ASP.NET Framework (MVC), C#, MSSQL Server, CSS, HTML, Javascript

Applying machine learning to mathematical formula recognition (OCR)

18/3/2024 - 26/5/2024

Team size: 2

ROLE: BACK-END DEV (TEAM LEADER)

Research algorithm documents, describe work models, application code, design convolutional neural network models, create training datasets for suitable models in mathematical symbols .

Github: <https://github.com/totgokhung123/DoAnCoSo-CNN-ORC>

TECH

python, Tensorflow

Website technology shop (Spring Boot)

07/06/2024 - 21/06/2024

Số lượng người tham gia: 3

Query events in videos by learning transferable visual models from natural language supervision

17/10/2024 - 24/12/2024

Team size: 2

Fitness workout App

02/01/2025 - 10/01/2025

Team size: 5

ROLE: FULL-STACK DEV (TEAM LEADER)

Providing a variety of technology items, components, accessories, vnpay payment, product and supplier management.

Github: <https://github.com/totgokhung123/DoAnLTUD>

TECH

Spring Boot, Laragon, Java, Javascript, HTML, CSS

ROLE: FULL-STACK DEV (TEAM LEADER)

Provide users to search for events in videos using similar descriptions or images, or keywords.

Github: https://github.com/totgokhung123/DACN_modelCLIP

TECH

Python, MongoDB, Javascript, HTML, CSS

ROLE: BACK-END DEV (TEAM LEADER)

Supports users who need to balance nutrition or want to gain or lose weight, manage daily diet, workout, and sleep.

Github: <https://github.com/totgokhung123/daltd>

TECH

Android Studio, Flutter, Dart, Firebase, Laragon, phpMyAdmin

EDUCATION

School year: 2021 - 2025

INDUSTRY: INFORMATION TECHNOLOGY

HO CHI MINH CITY UNIVERSITY OF TECHNOLOGY (HUTECH)

Information Technology major - Artificial Intelligence major

SKILL

Programming Language: Python, java, C#

Framework: Flask, TensorFlow, Spring boot, ASP.Net Core

Database: MySQL, MongoDB

Tools: Git, Docker

AWARDS

2021-2022

Sinh Viên 5 Tot department level

2022-2023

Sinh Viên 5 Tot school level

2024

the Final of IT GOT TALENT Contest

EXPERT KNOWLEDGE

Work with FRAMEWORK

FRONTEND JS, HTML, CSS ,
FRONTEND/BACKEND C#.NET

knowledgeable C#,java, python

REFERRER

- TS. Vũ Thanh Hiền

- Lecturer at Ho Chi Minh City
University of Technology (HUTECH)
